

Perfetto: The Clear Choice For Professionals

Perfetto :

The instruments are manufactured from high quality stainless steel, and meet with the essential requirements of BS EN ISO 7153.

Perfetto Plus:

These are produced to the same high specification but with Tungsten Carbide Inserts fitted to either the cutting or gripping edges. This will give the instrument an even longer high performance life.

Perfetto Super Plus:

Titanium instrumentation designed to meet the needs of surgical procedures that require a precision featherweight touch or in a situation where only totally non-magnetic tools can be used.

Perfetto Diagnostic:

High quality hand held diagnostic equipment and instrumentation to meet the needs of modern medical demands.

Stainless steel

SURGICAL INSTRUMENTS are the most sophisticated feature in the modern surgery. They need to be precise, formulated from the right material, heat-treated and finished to the point in all respects. We try our best to produce the instruments to the above specifications in order to ensure that wherever our instruments are utilized, no danger accrues to the human life and the complexity it involves in bringing about the desired goal and achievements. We are presenting this catalogue with a hope that it would be an excellent guide to all our promoters and medical professionals the world over. A modern range of Surgical Instruments is exhibited in this catalogue for you to choose the best and the most convenient items to suit your way of processing in the medical profession and in order to achieve the highest result. Our location in the center of Sialkot city in Pakistan which is known the world over for this profession and in the supply of Surgical Instruments in particular. We have at our disposal expertise whose professional approach and technical abilities in the modern Surgery make it possible for us to acclaim the quality Instruments. We would always remain indebted in the support given to us by our promoters to help us in the marketing of our stainless steel Surgical Instruments in their proximity with pride and honor. We pledge and undertake to serve even more in the years ahead to our quality minded promoters, with highest standard and correct designing of the Instruments. Though the catalogue covers a wide range of Instruments but we are open to welcome you enquiries for the instruments not listed in the catalogue. Our endeavor and earnest desire to maintain the present prices but due to the universal economic conditions it has remained beyond our control to make adjustments where necessary. We hope that this point would be appreciated in the right earnest.

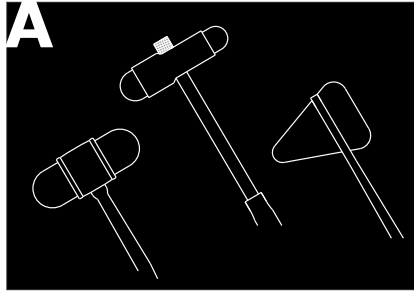

- Perfetto* :..... Die Instrumente sind aus hochwertigem Edelstahl gefertigt. und mit den grundlegenden Anforderungen der BS EN ISO 7153 erfüllen.
